

Pilgrimage to a Sacred Place

Thanksgiving Ceremony

Blessing an Ancient Temple

and all that lives in, on and from the soil

The high point north of Council Grove, Kansas seems to be a sacred site with wide regional influence where humans gathered for centuries to renew the connections between Heaven and Earth—a Temple.

Harvest's end is the time in the *Circle of Life* to honor the sources of life and abundance. Our blessings sustain the circle for the new year.

All who love the Earth as Mother, Gaia and Divine Feminine are invited to join my journey to a sacred site for a simple **Earth Blessing** ceremony.

Noon, in heart-centered, prayer-filled process, we will spread full spectrum sea minerals to the *Seven Directions* as physical & metaphysical blessing to renew the land's abundance for healthy harvests in future years.

Saturday, November 19

morning Travel to White Memorial Camp

11am Assemble to prepare for Blessing Ceremony

noon **Earth Blessing**

ceremony to the 7 directions

spread sea minerals & prayers on sacred soils

1pm **Sacred Site Tour**

I will show 'n tell discoveries of my previous two visits—waterflows, springs, ley lines, vortexes, energy plants—and explain the significance of subtle energy anatomy.

4pm **Temples in the Land** **Uniting Heaven and Earth**

In ancient times, temples were places to transcend physical dimensions and access spiritual awareness. In earlier millennia, humans formed temples from the land itself, and secret societies protected this wisdom in centuries of war and darkness. Today, Earth asks awakening humans to gather at ancient holy places for ceremony & celebration to honor life's sources, to pray for peace.

6pm **Turtle Island Community Feast**

Camp staff will cook a basic ceremonial feast. Please bring a personal holiday dish to share. \$15 minimum donation.

7pm **Star Dreams**

The Mystery of Crop Circles

An award-winning documentary movie looks deeply into one of the greatest mysteries of our time. Every year, hundreds of elaborate designs are spun and woven in wheat and other grain fields by methods that baffle science. Veteran investigators believe these complex, beautiful patterns are communications from intelligent beings in higher dimension time. We will end with a meditation to invite more crop circles to appear in Kansas.

Sunday, November 20

Sacred Site Survey

In my two visits to White Memorial Camp, I had little time to explore a huge site. My initial glimpses in March 2008 suggest a regional center in the subtle energy web that was used for sacred ceremony in earlier millennia. Discoveries in April 2011 support my initial views, but dramatically expand the site's subtle energy anatomy to extra-ordinary scale and significance.

I will devote a full day Sunday to survey and map new areas of this remarkable land. Beginning with a sunrise observation, I will cover as much land as possible by sunset.

I have only one hand and other disability. I move slowly with difficulty. I welcome helpers to assist in this effort. This day isn't formal teaching, but serious, silent, focused survey work. I have limited time to walk and sketch a large area with difficult terrain and unusual subtle energy anatomy.

There is no charge to join this activity, but you will learn a lot. I happily accept donations to support this work, and gratefully give a third to **Kansas Sustainable Living** initiatives.

For information about White Memorial Camp as sacred site:

David Yarrow's work with water and dowsing:
www.dyarrow.org/WaterAngel

Sea minerals for soil renewal and biological regeneration:
www.dyarrow.org/soil

No fee to join the noon **Blessing Ceremony**.

However, sea minerals cost \$.50/lb.

At 1 ton/acre, a 50# bag covers 1200 sq. ft.

I will spread 100 lbs. on my own expense.

Can you spread a bag? Two bags?

I ordered one ton delivered to the Camp, and you can buy some from me.

Please order your minerals before Nov. 17

Please register in advance so we can plan **Blessing Ceremony & Community Feast** for everyone's comfort and joy.

Contact: **Pat Embers**
